

CORONA-assignment for students at the Technical School doing their A-levels

Please write a journal starting at the end of March. If you haven't done journal writing before or you don't know at all what it is, then first find out by searching the web.

I'd like you to write about 3 to 5 sentences each day. There are 24 hours a day and lots of things happen. If your mind goes blank completely you can also write about the weather; but not every day. You may hand it in weekly blaschke@bsz-bau-und-technik.de or in one go by April 20, 2020 in your most beloved handwriting or in Arial 12 as a hard copy.

Anything you write will be for my eyes only and I assure you that I'm not going to tell anyone.

I might take the liberty to grade your writings.

Have a great time and see you in class.

Mr Blaschke
